## PROFILE

---

To secure a dynamic position in industry, leveraging my academic background, passion, and drive to contribute proactively to the success and advancement of the organization. Eager to apply my skills, learn from industry experts, and grow both personally and professionally in a collaborative environment.

## EDUCATION

---

**Bachelor Of Technology in Mechanical Engineering** Aug 2019 - May 2023  
Rajeev Gandhi Memorial College of Engineering and Technology, Nandyal

## SKILLS

---

### Technical Skills

- Java
- Spring Boot
- HTML/CSS
- Java Script
- SQL

### Communication Skills

- Team work and Collaboration
- Problem-Solving
- Time Management
- Positive Attitude

## WORK EXPERIENCE

---

### LMS Project using java full stack

- Developed a comprehensive Learning Management System (LMS) using Java full stack technologies to streamline course management, assignment submission, and grading processes.
- Designed and implemented a user-friendly frontend using [FrontendFramework], enhancing user experience and navigation.

### IoT Based Intelligent Gas Leakage Detector Using Arduino

- Developed an IoT-based gas leakage detection system using Arduino microcontroller.
- Implemented algorithms for real-time detection and alerts.
- Collaborated in hardware-software integration for seamless operation.
- Demonstrated problem-solving skills and attention to detail.
- Highlighted ability to innovate and implement solutions for safety challenges.
- IoT gas leakage detector utilizing Arduino for real-time detection and remote alerts.

## CERTIFICATIONS

---

- Cyber Security
- AI-ML Virtual
- Java Full Stack

## Hobbies

---

- Referring Books
- Browsing
- Coding
- Playing Cricket
